THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE
OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT 50
U.S.C. 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION
OF ITS CONTENTS TO AN UNAUTHORIZED PERSON IS PRO-
HIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

- 25X1 1. The Soviet railroad station traffic control office in
HEGYESHALOM (P 48/Y 06) was headed by a major, assisted by
a first lieutenant and a second lieutenant, up to 17 October
1949. The mission of the RTO's office was to check and dis-
patch all Soviet rail shipments going through the railroad
station and to check transient Soviet soldiers. As the RTO's
office had no private telephone connection it used one of the
two available Hungarian lines.
2. The office issued travel certificates to the train commanders
of all Soviet shipments coming from Austria. The certificates
were transmitted to Hungarian authorities who arranged for the
payment of expenses in connection with Soviet rail traffic.

25X1

25X1

6. So-called "Vertushka Shipments" were first-priority Soviet
shipments

According to Soviet safety regulations, ammunition trains had seven empty railroad cars behind the engine, whereas Hungarian regulations provided for four empty cars behind the engine and three empty cars at the end of an ammunition train.

25X1

7. Soviet rail shipments entering Hungary amounted to about 40 railroad cars per week up to the date of observation. Their cargo was unknown to Hungarian railroad personnel. Transit shipments of oil from STADLAU (F 49/A 49) to CON-STAETA (R 53/54/E 71) averaged 100 railroad cars per week.
